

# **‘Wildlife Rehabilitation and Climate Change’**

## **August 6-8 2025, Novotel, Canberra**

### **SPONSORSHIP PROSPECTUS**

#### **INTRODUCTION AND OBJECTIVES**

The Australian Wildlife Rehabilitation Conference Inc. (AWRC) is a national conference for those dedicated to the welfare, rescue and rehabilitation of native wildlife. The conference is held every second year, rotating through the different states and territories of Australia.

The conference aims to present the latest information about Australian wildlife including rescue, orphan rearing, rehabilitation, diseases and treatment. We envisage about 30 presenters from around Australia, including speakers from wildlife care organisations, government, the veterinary profession, learning & research institutions and other organisations concerned with the welfare and preservation of wildlife.

The conference is also a forum for the discussion of the challenges and ethical considerations facing local, state and federal agencies that formulate laws and regulations that cover this sector. It aims to foster greater cooperation between wildlife care groups, government agencies, as well as mining and construction industries that impact on habitat for commercial use.

This conference will take place at the Novotel in Canberra on 6-8 August 2025. There will be a registration and welcoming ceremony on the evening of the 5 August at 6pm. There will also be a conference Dinner on Thursday 7 August. We anticipate an attendance of 150 people from all over Australia and over 100 online attendees.
